## PROFESSIONAL SUMMARY

Accomplished Full Stack Developer skilled in Rust, TypeScript, JavaScript, MERN stack, Java, and React. Expert in building scalable applications, seamless frontend-backend integration, and leveraging Generative AI. Strong collaborator with exceptional problem-solving skills, dedicated to delivering innovative, high-quality technical solutions.

## EDUCATION

### Masai School, Bangalore

Full Stack Web Development

Aug 2024

### Priyadarshini College of Engineering, Nagpur

Bachelor of Engineering

May 2023

## SKILLS

**Technical Skills:** Docker, RESTful APIs, RUST, Java, JavaScript, Node.js, Redux, React, DSA, MongoDB, Git, React Native, TailwindCSS, Responsive Web Design

**Soft Skills:** Teamwork, Adaptability, Problem-solving Abilities

## EXPERIENCE

### WeDoGood Ventures Pvt.Ltd | *Application Developer*

Aug 2024 - Aug 2025

- Resolved UI inconsistencies across multiple app screens to enhance user experience.
- Optimized authentication flows in the counseling booking app for seamless login and signup.
- Enhanced application performance by refining and upgrading existing features.
- Integrated backend APIs and implemented payment gateway solutions.

### KodingKorp Limited | *Fullstack Development Engineer*

May 2025 - Aug 2025

- Developed and maintained frontend applications using Next.js and Tauri content scripts.
- Engineered and optimized backend services in Rust with PostgreSQL integration.
- Resolved critical bugs across web and desktop application layers.
- Delivered robust browser extension and desktop app solutions leveraging Tauri architecture.

## PROJECTS

### EventMaestro | *React, Chakra UI, MongoDB, Responsive Web Design, Express.js, Node.js*

-  Deployed Link : <https://event-maestro-jfkz.vercel.app/>
-  Github Repo : <https://github.com/abhay2010-2010/EventMaestro>
- Contributed to the development of EventMestro, an event booking website with user-friendly navigation.
- Implemented an admin dashboard enabling event management through (CRUD) operations.
- Developed secure and responsive checkout and payment pages to streamline the ticket booking process.

### Kathan News | *React, TypeScript, Chakra UI, MongoDB, Redux, RESTful APIs*

-  Deployed Link : <https://kathan-news.vercel.app/>
-  Github Repo : <https://github.com/abhay2010-2010/Kathan-News>
- Implemented authentication, user profile management, and admin dashboard functionalities.
- Developed CRUD operations for users and news articles, enabling efficient content and user management.
- Enhanced interactivity by integrating light/dark mode toggling and toast notifications using Redux and Chakra UI.
